ABOUT ME

I am a computer engineer with a strong foundation in both software and hardware, actively seeking opportunities to further my education and contribute to innovative solutions in the technology field. My experience includes leading technical projects, conducting market analysis, and developing creative app ideas that address emerging market needs.

I have a proven track record of working in IT systems and infrastructure, previously serving as an IT Associate at Kiser Computing Consulting. In this role, I developed skills in troubleshooting, network management, and end-user support, contributing to improved operational efficiency.

I am passionate about advancing my knowledge and expertise to make a meaningful impact in the technology sector. With a keen interest in innovation and digital transformation, I am eager to explore new opportunities to grow academically and professionally.

EDUCATION AND TRAINING

BS (Honors) in Computer Science

Iqra University [10/2019 – 10/2023]

City: Islamabad | Country: Pakistan | Website: <https://iuisl.iqra.edu.pk/> | Final grade: 3.00/4.00

PROJECTS

Final Year Project IoT-Based Flood Prediction System Components: Mobile Application and Hardware

- Developed an IoT-based Flood Prediction System comprising both hardware and software components, focusing on early detection of flood conditions.
- Utilized advanced sensors and predictive algorithms to monitor environmental data and predict potential flood risks.
- Created a mobile application to provide early warnings, helping to mitigate damages and safeguard communities.
- Presented the project findings to faculty, highlighting its innovative approach and practical applications

WORK EXPERIENCE

IT Project Lead

AH & HNB Digital Creations Private Limited [09/2024 – Current]

City: Islamabad | Country: Pakistan

- Spearheaded IT and digital solution projects to address client needs effectively.
- Oversaw project management processes, ensuring timely delivery and high-quality outcomes.
- Developed strategies to improve operational efficiency and customer satisfaction.

- Collaborated with global clients to identify IT support needs and provide tailored solutions.
- Mentored team members to achieve project objectives and foster professional growth.

IT Associate

[10/2023 – 09/2024]

- Demonstrated proficiency in troubleshooting and resolving hardware and software issues, enhancing operational performance.
- Managed and maintained network systems, ensuring seamless connectivity for users.
- Provided end-user technical support, addressing IT-related concerns promptly.
- Assisted in deploying and configuring new software and hardware, improving overall user experience.
- Contributed to the successful implementation of IT projects, enhancing internal processes and systems.
